Replacing steps with ramps for disabled people (Faculty of Pharmacy - Alexandria University)

Replacing steps with ramps for disabled people (Medical Research Institute, Alexandria University)

Description:

Pedestrian Path Policy on Campus

1. Separator between road for vehicle and pedestrian path.
2. Street lamp for pedestrian in night.
3. Replacing steps with ramps which have suitable design for pedestrian having physical disabilities.
4. The travel distance of the vehicle inside campus are very limited. The streets inside the campus are also limited. The people enters the campus with their cars only to use the available Parking area.

Transportation Initiatives to Decrease Private Vehicles on Campus

- The University provides mass transportation (shuttle buses) for employees and faculty members to drive to and from the University instead of using their private cars. These buses park mostly outside the University Campus.
- The University provides the opportunity to contract with some private transportation companies to facilitate the movement of Faculty members and students, and these buses park temporarily outside the University Campus.
- The students park their cars outside the University Campus and walk inside the Campus.
- The University encourage car sharing (carpooling) among the faculty members and students, to reduce the number of cars entering the University Campus and limit the parking area, and adopt healthy and sustainable transportation options
- The university provides bike parking for students and allow the bicycles to enter the campus.
- Encouraging students, employees and faculty members who leaves around the University Campus to go by walking instead of using a Car.
- Increasing the University green area.
- A competition between the faculties in the University was set titled “ Towards an Eco Faculty” was set. This competition encourages all the different faculties to use their resources in a way that fulfils the idea of green faculty and green environment.

Pedestrian Path Policy on Campus

1. Separator between road for vehicle and pedestrian path.
2. Streetlamps for pedestrian at night.
3. Replacing steps with ramps which have suitable design for pedestrian having physical disabilities.

Sincerely,

Prof. Ashraf Elghandour, MD
Vice president of graduate Students & Research
Acting Vice president Community Service &
Environment Development
