#### Description:

Alexandria University provides shuttle service.

The number of shuttles operating in Alexandria University are 7 buses. The average number of passengers per shuttle is 28/50 passengers. The shuttles make nearly 2 trips per day at a fixed time and fixed line paths to provide convenience for the passengers and at the same time to reduce the problems caused by the impact of increased traffic intensity on the local environment such as deteriorating air quality and traffic jams.

The university also allows other community shuttle services to offer their services with reasonable price for the employees, staff members and students.
