[3] Waste (WS)

[3.2] Program to Reduce the Use of Paper and Plastic on Campus

Recycling Program for University Waste (Alexandria University, Egypt)

Program for separation of Paper, Plastic, aluminum cans, glass and organic waste in Campus (Alexandria University, Egypt)

Plastic recycling machine at the Faculty of Science (Alexandria University, Egypt)

Description:

Alexandria University program to reduce the use of paper and plastic in campus

Program 1: Development of electronic archiving system; the university faculties and the main campus are moving toward the electronic archiving system to reduce paper consumption.

Program 2: University decrees to reduce the use of paper in the campus:

2.1: The president decree to use the e-mails for communications inside the campus and between the university main campus and all the other campuses.

2.2: In the situations, the university or any of its faculties need to print the official documents; this has to be on recycled paper (2 faces copy).

2.3: The University formulated a community for administrative reform to minimize the administrative processes and decrease the use of papers except in who are relevant to financial process.

Program 3: Digital transformation toward electronic exams to reduce paper consumption.

Program 4: Digital transformation toward electronic course to reduce paper consumption and books printing.

Program 5: Electronic administration of student courses by about 50% instead of written administration to reduce paper consumption.
